

## **Imagine (Burner)**

### *1. Strophe*

I can't imagine a world without liars  
I can't imagine a world a world of truth  
I can't imagine a world without deception  
I can't imagine a world world without you  
You can't imagine I mean just what I say  
You can't Imagine that I do this day by day

### *Refrain*

I take a look around  
I listen to the sound  
of a world that is just pretending

### *2. Strophe*

I know today I gonna meet some people  
Pretending and waffling and wasting all day  
But I try not to care about all these liars  
Never ever listen to what they say  
It's pretty clear that this seems to you strange  
I can't imagine that this will ever change

### *Refrain*

I take a look around  
I listend to the sound  
of a world that is just pretending (now)

### *Bridge*

We're the embodiment of sins We're lying with a smile  
I know that it sucks That it's weird but it's TRUE

### *Bridge 2*

I take a look around and guess what do I see  
I take a look around and everything I see is - LIARS
