

Destination Anywhere

1. Strophe

Where's the promised gate to Paradise
To flee from pain I feel arise
To heal my bleeding wounds inside
Just to clear up my blurred sight

Refrain

Destination Anywhere
Someday I'll find that place for me
Destination Anywhere
I'll rest in your insanity

2. Strophe

My desire makes me going far
I'm doing all to rake my fire – inside
Try to reach the sky – try to touch a star
Just to satisfy deep-down desire

Refrain x2

Bridge

Destination
Destination
Destination – Anywhere

When I don't go
I will fall
If I stay I will fall apart

When I don't go
I will fall
If I stay I will fall apart

When I don't go
I will fall
If I stay I will fall apart
If I stay I will fall apart

3. Strophe

My destination's anywhere
I'll never find that place for me
My destination's anywhere
Or I'll fade in this insanity
